

# Ask every patient for their mobile number

## Text messaging works!

### HOW IT WORKS

**1** Ask for the patient's **mobile number**.

**2** Select the **Mobile Services** checkbox. Enter the 10-digit mobile number [here](#). Select **Save**.

Patient ID	13521608
First name	John
Last name	Smith
Date of birth	01-08-1960
Mobile number	<input type="text" value="1"/> <input type="text" value="617"/> <input type="text" value="283"/> <input type="text" value="7737"/>

**Now, patients don't have to remember their three-digit code.**

Once you sign up the patient in the system, all they have to do is respond with "Y."

The patient will get a text that looks like this:

<Pharmacy>: Welcome JOHN. Read program terms at <http://mrx/bz/frt> Reply with Y to accept & enroll. Msg & data rates may apply. Reply H for Help.

Thank you JOHN for signing up for <Pharmacy> Rx alerts. Your account is now active. 50msgs/mo. Msg & data rates may apply. Reply H for Help. STOP to cancel.
